Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This Office Action is in response to the Election filed January 25, 2005. It is noted that Applicant intended to cancel claims 15-19; however, the claims have not be canceled because an amendment is required in order to cancel the claims.

Status of Claims

2. Claims 1-13 are canceled. Claims 14-19 are pending.

Election/Restrictions

3. Applicant's election without traverse of Group I (claim 14) in the reply filed on January 25, 2005 is acknowledged.

Claims 15-19 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on January 25, 2005.

Information Disclosure Statement

4. The information disclosure statement (s) filed July 11, 2003 have been considered.

Specification

5. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Objections

6. Claim 14 is objected to because of the following informalities: claim 14 recites: "comprising a material reacted from a metal the semiconductor substrate". Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claim 14 is rejected under 35 U.S.C. 102(b) as being anticipated by Davari et al. (US 4,881,105).

Davari et al. teaches a semiconductor substrate, a source layer at one surface of the substrate and comprising a high concentration of a dopant of one polarity, and a well layer beneath the source layer doped with a dopant of opposite polarity (Fig. 1, col. 4, lines 25-35). Davari et al. shows a plurality of trenches penetrating the source layer filled with conductive material (Fig. 1, col. 4, lines 35-67, col. 6, lines 40-55). Davari et al. discloses a highly conductive layer on the surface of the source layer comprising a silicide, an insulating layer on the highly conductive layer, vias filled with conductive material for contacting the highly conductive layer (Fig. 1, col. 4, lines 25-67, col. 6, lines 5-50).

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Nakamura et al. (US 5,508,534), Kocon et al. (EP 1041638A1), and Williams (US 5,877,538) teach several embodiments related to applicant's disclosure.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Maria Guerrero whose telephone number is 571-272-1837.
